Part Number        82213158AB

A sophisticated smartphone-controlled safety and convenience software package that enables features good for the whole family. * Mopar Connect Module is also required with this installation kit

MoparConnect

Imagine having a 24/7 personal assistant to help you remotely control your  vehicle. You can also receive notifications regarding the vehicle's security, and do much more with your vehicle. Vehicles can now be
directly connected to the cloud for you to gain peace of mind while enjoying the concierge services. Once installed, the Mopar Connect system
is managed by a suite of sophisticated software features that enables seamless, reliable, and secure vehicle applications and wireless internet connectivity.

* Features are sold seperately and a subscription is required. Please see your dealer for details.
** Must be used with vehicle specific wiring harness

Install Time: 0.1 hrs.
