

Under Car & Hood Accessories - Suspension - Lift Kits - Ram 1500 (4WD)

Part Number P5155797

Lift Kits 2" (excluding TRX4)

Fits Crew, Quad and Regular cabs, and provides lift for up to 34" diameter tires. Front lift is via replacement Premium Performance Bilstein gas struts; new dual rate coil springs provide rear lift. Also includes components to address rear stabilizer bar, brake hose length and suspension compression travel, as well as Premium Performance Bilstein rear shocks.

Lift Kits 4" (excluding TRX4) and Lift Kits 3" (TRX4 models)

Fits Crew, Quad and Regular cabs, and provides lift for up to 35" diameter tires while retaining factory turning radius. Lift kits for both the standard DS and TRX4 models contain the same basic components; there are only a few minor differences. The TRX4 factory ride height is approximately 1" taller than the standard DS, so ride height of a 3" Mopar lift-equipped TRX4 is as tall as a 4" Mopar lift-equipped DS. Compatible with all vehicle systems, including Electronic Stability Program.

Shock Options:

Performance shock is a twin-tube, high capacity hydraulic shock that features tenstage velocity sensitive valving. White enamel finish; includes black boot.

Mopar's premium shock, jointly tuned with Bilstein, allows you to realize the most performance gain. The seamless monotube body contains a patented piston design and a high-pressure gas charge to quickly dissipate heat and minimize shock fade. Silver Zinc plated finish; includes black boot.

WARNING: Lift Kits alter vehicle properties and affect handling. Lift kits are intended to be used for off-road driving only. Your kit will come with more detailed instructions and warnings. Contact the Mopar Direct Connection Tech Line (888-528-4364) to obtain a copy.

NOTE: Vehicle RPM and speedometer readings are based on the stock vehicle's tire and wheel combinations. Installing larger wheels and tires with your Mopar Performance lift kit could result in incorrect RPM, speedometer and odometer readings.

WARRANTY: Lift Kits work with all vehicle systems including the Electronic Stability Program, and are covered (except P5155075) by a Limited Lifetime Warranty. The warrantor is the Lift Kit manufacturer, not Mopar, Chrysler Group LLC, or the dealership selling the product. Contact the Mopar Direct Connection Tech Line (888-528-4364) for warranty details and installation instructions.

Mopar Performance 2" Lift Kit with Premium Bilstein Struts and Shocks, not for trucks with Air Suspension
