	1	2012	JC		2/29/12	s32206f	<input type="checkbox"/>	<input type="checkbox"/>	

[PC: Not Compliant] Means that the PC you are using doesn't meet the recommended specification. The program will still work but not at optimal performance.

BOOKMARK Is where your session information is stored for the different vehicles you have looked up parts for. It is the homepage for the application when it starts up.

LIBRARY This link contains useful charts, catalogs and other reference information.

PARTS Takes you to the parts illustration and parts list for the chosen vehicle.

Ident Allows you to chose a vehicle without a VIN by model year family.

Navigator Is your table of contents for the catalog.

Exchange Is your shopping cart where you can build a parts list as you view the catalogs.

Feedback This allows the user to send information back to Chrysler such as data error's, enhancements, etc.

Setup Allows you to set some personnel default settings for the program.

Diag Tool Will run a bandwidth test into Chrysler along with some other system tests. If you are having trouble with the program you can submit this information by hitting the send button after the tests have completed.
