Get the Advantage of Authentic Performance

Mopar Value Line Shocks and Struts

Innovative Technology for Complete Comfort and Ultimate Control

Mopar Value Line Shocks and Struts provide the ultimate in ride control and comfort, whether traveling on- or off-road. Featuring unique groove tube technology, Mopar Value Line Shocks and Struts contain precision-tapered grooves that allow fluid to flow freely around the piston to create a smoother ride under a wide range of driving conditions. During emergency maneuvers or braking, the piston travels beyond the grooves to firm up the ride for added safety and control when they are needed most.

Passenger Car Shock Absorber

- All-Weather Fluid: Contains special modifiers to reduce friction and ensure smooth rod reaction.
- Full Displaced Valving: Tuned specifically for each application, valves automatically adjust to road extremes to provide consistency and ride comfort.
- 1 3/16" Bore: Larger bore than most shocks to provide more efficient and consistent control.
- Nitrogen Gas Charged: For improved ride and handling, this helps maintain tire-to-road contact by reducing aeration.
- 1/2" Diameter Piston Rod: Nitrocarburized rod for long service life.*
- Special Seal: "Self-lubricating" fluid seal is designed to retain gas without excessive wear or friction.

*On non-dust shield units only.

Designed for Authentic Performance

To make it easy to order Mopar Value Line Shocks and Struts, Mopar has instituted a smart part numbering system, so the last four digits of the Mopar part number correspond to the last four digits of the manufacturer part number. For example, if the Mopar part number is 0SGR5128, the manufacturer part number is RS5128. It's as easy as that!
